Daycares

USA Live Web Cam provides an instant live image for parents to see their children anytime during the day without disrupting your daycare.

As more day care centers adopt this technology and use it to enhance their marketing efforts and to ease the increased anxieties of parents; you will find more parents who expect you to offer this service

USA Live Web Cam

With USA Live Web Cam you will receive a turnkey package that includes a company domain name setup for you, (www.yourdaycare.com) a web page with your company information, live web cam picture & your services. A web cam that can update from every 30 seconds to once an hour depending on your bandwidth (internet connection) and is programmable to have it update only during business hours.

- All camera packages come with a one year manufacture warrantee. Also USA Live Web Cam has a year to year complete coverage after your web cam is out of warrantee.

Daycares have two options. Have the live pictures placed on their web page or have a hidden link they can email to the parents so they are the only ones with access to the live picture.

In a remote place with satellite internet and they charge extra for bandwidth, No problem, we can adjust your camera's picture and upload time so you won't go over your bandwidth.

Auto Dealers, Show your inventory live without paying a person to take pictures each day.

Web Cam Packages include:

- Web Camera with built in web server installed.
- 1 year hosting site for updated picture from 30 seconds to 1 hour depending on bandwidth.
- Customized web page with business information, live web cam picture.
- Domain for your business that points to your web page. (www.yourdaycare.com)
- Linked to www.usalivewebcam.com that gets 8,000 + hits per day.
- Everything is done for you from start to finish. Start promoting your business the same day!

Day Care Center Monitoring

Giving parents the ability to view their children with a secure link to a protected site, while they are at work or traveling anywhere in the world, provides significant value. It also demonstrates your complete confidence in the quality of care provided in your facility.

Parents will pay more to have this capability and the peace of mind that goes with it. As a day care provider, you also receive value since you can observe your care-giving staff to insure their compliance with your rules.

Affordable Packages For a High Resolution Camera Bundle

50 ft. power/network cable, indoor wall mount, universal power supply, StarDot Tools software. Installed, setup and ready to go.
